

Ederagoghene Efeoghene Ifechukwude

CYBERIST | CYBERSECURITY ANALYST | AUTOMATION ENGINEER | TECHNOLOGY RESEARCHER

Lagos, Nigeria • efe.ederagoghene@gmail.com • linkedin.com/in/ederaefe • ederaefe.vercel.app

ABOUT

I am a Cyberist focused on understanding, securing, and improving digital systems. I combine cybersecurity analysis, automation, and software development to identify risks, build reliable solutions, and protect information. I approach every project with responsibility, accountability, and a commitment to building technology people can trust.

Reliable

I follow through and deliver work carefully.

Accountable

I own my work and its outcome.

Continuous Learning

I keep improving my knowledge and skills.

SKILLS & COMPETENCIES

CYBERSECURITY

- Threat Detection
- Security Analysis
- Network Monitoring
- Vulnerability Assessment
- Security Research

TECHNOLOGY

- Python
- Web Development
- Automation
- Linux
- API Concepts

TOOLS

- Wireshark
- Nmap
- tcpdump
- Git
- SIEM Concepts

PROFESSIONAL

- Problem Solving
- Communication
- Collaboration
- Research
- Critical Thinking

EXPERIENCE

2025 — Present

Independent

Cybersecurity Automation Engineer & Developer

Building security-focused tools, automation solutions, and digital platforms.

2024

DLCM Entrepreneurship

Program

Head of Academic Affairs

Managed academic structure, coordination, and learning processes for the Deeper Life Bible Church entrepreneurship program.

2023 — 2026

Visiolog

DevOps

Developed and optimized CI/CD workflows, cloud-based deployments, and automation processes to streamline software delivery.

2023

YINTAB College

Tutor

Simplified technical concepts to improve student understanding.

PROJECTS

CYBERSECURITY PROJECT

VenScanner

A security-focused platform designed to analyze files and support early detection of suspicious activity.

[venscan.vercel.app](#)

WEB-BASED IDE

VenSpace

A browser-based development environment for writing, managing, and running code online.

[venspace.edgeone.app](#)

AUTOMATION PLATFORM

BarchScan

Software used to convert written logbooks to digital spreadsheet records seamlessly.

[barchscan.vercel.app](#)

CERTIFICATIONS

CompTIA Security+

IN PROGRESS

Cisco Cybersecurity Foundations

COMPLETED

Hack The Box (HTB) — SOC Analyst Path

ACTIVE

Python Programming — Alison

COMPLETED

Communication & Collaboration Skills — Alison

COMPLETED
